

## JOIN US FOR THE **Human Library Experiment!**

**The Speaker's Bureau of Brain Injury Services would like to invite survivors and community members who could benefit from hearing peer stories one-on-one to join them for the HUMAN LIBRARY EXPERIMENT.**

The Speaker's Bureau is comprised of survivor volunteers who educate and inspire members of our community through their stories of surviving a brain injury.

Modeled after the concept in Copenhagen, Denmark, the Human Library creates a safe space for dialogue where topics are discussed openly between our human "books" and their "readers." All of our human "books" are Speaker's Bureau volunteers with personal experience sharing their story. This is a place where difficult questions are expected, appreciated and answered. Have a cup of coffee, check out a human "book" and learn something new that may help you in your recovery journey or awareness.
